

IN OFFICE PROCEDURE BILLING- SOUTHERN UTAH ENT OFFICES

Welcome to Southern Utah Ear Nose Throat and Facial Plastics. Your provider may need to perform an in-office procedure today. These procedures help us better diagnosis patients' symptoms.

Some of the in-office procedures that our providers can perform are; rigid scopes, flexible scopes, video scopes, CT scans, biopsies, in office sinuplasty's, ear wax removal, hearing tests, VNG's and many other types of procedures.

If you have insurance, we will bill your insurance for the in-office procedure. If you have a high deductible or other un-met benefits, the front office may have already taken a deposit upon check in. Most insurances apply in office procedures to your deductible, co-insurance or your surgical benefits. We ask that every patient know their own insurance benefits. The deductible or co-insurance is separate from your copay.

After your procedure, we will bill your insurance. We estimate that in 15 to 30 days you will receive an EOB (explanation of benefits) from your insurance company, showing what you may owe for the in-office procedure. You will then receive a statement from us for any remaining balance. If you are on a high deductible plan, your insurance may apply both the office visit and the in-office procedure to your deductible/co-insurance. (We consider anything over \$2,000 per year, a high deductible plan)

After your insurance processes your claim, for larger balances, our office can split your bill into 3 payments. We require a credit card or checking account in order to do this and it would be taken automatically each month on a date of your choice. Please call our billing office after you receive a statement to set this feature up. (435)628-3334 ext 4. Thank you.

ESTIMATES OF FEE'S WE BILL TO INSURANCE COMPANIES:

(Please note: Insurances do not pay these amounts in full. We bill these amounts and each insurance has their own 'fee schedule' that they will pay for each of these fee's, the rest is then applied to your benefits and then we apply the contractual write off)

Scopes \$350 to \$500

CT scan \$650

Hearing Tests \$120

Biopsies \$120 to \$350

VNG's \$200 to \$300

Ear Wax \$250

FNA \$300

ALLERGY TESTING \$650 +

PE TUBES\$ 379 per side

Please ask if a procedure you are having performed is not on our list and we can give you that estimate verbally. Thank you for coming in today. Updated 2023
